## Summit® dialysis scale

THE SUMMIT DIALYSIS SCALE is designed to be mounted above ground or in a pit flush with the floor for easy-access multipurpose weighing. The patient simply walks or is wheeled onto the weighing platform where a reading is taken. The heavy-duty handrail provides patient safety and convenience, and is positioned to remain clear of wheelchairs.

The Summit Dialysis Scale provides exceptional performance in dialysis centers and hospitals. While value-priced, the Summit Dialysis Scale also employs a rugged design that delivers efficient installation and operation.

<b>Capacity</b>	1000 lb (500 kg)
<b>Graduations</b>	0.2 lb (0.1 kg)
